Affirmative Action group finishing plan

An official Cal Poly Affirmative Action plan is nearing completion and should be ready to submit to the Chancellor's office by Feb. 14, ASI Vice-President Mike Hurtado informed the Student Affairs Council Wednesday night.

Hurtado, a member of the Administrative Council heard a status report from the university Affirmative Action Compliance Committee and Affirmative Action advisor, Smiley Wilkins.

The Council was told that the plan, which was first asked for back in 1973, be submitted to the Chancellor's office and then forwarded to the Department of Health, Education and Welfare. The plan was to be sent back to the campus for final action, said Hurtado.

The objective of Affirmative Action is to encourage the hiring of more minorities. It is estimated that by 1980, 25 per cent of Cal Poly's employees will be minorities. The percentage now is only 14. Also, by 1980, 15 per cent of the employees will be women, compared to 11 per cent now, Hurtado told SAC.

Prof attacks firing

Smith claims his dismissal violated proper procedure

by ALISON HARVEY

Assistant Professor Bradford Smith of the Social Science Dept., who was fired Dec. 18 effective next September, will file Tuesday for review by a grievance committee.

Smith is asking that his termination be set aside and that he be given a third probationary year, claiming that his firing was arbitrary. He says that there was substantial departure from required procedure in review proceedings and that evidence in his favor was ignored.

Support for Smith's request comes from the Personnel Review Committee (PRC), composed of 16 members of the Academic Senate. It is their job to review personnel and make recommendations to Kennedy.

They found fault in the primary review of Smith's case, in which five of six tenured faculty members of the Social Science Dept. recommended that he be fired, in that established procedures were not followed, the

recommendation was based on discrimination or prejudice and insufficient information. Pres. Robert E. Kennedy fired Smith in spite of the PRC findings.

The grievance committee is formed of three members of the faculty picked at random. Both Smith and Kennedy have veto power in the selection.

Their recommendation is advisory, but should Smith disagree with their findings, he can appeal to the Chancellor's office.

In addition to the findings of the PRC, Smith claims that his high student evaluations were ignored in violation of procedure found in both the campus administrative manual and Title 5 of the California Administrative Code.

The administration was in further violation of CAM and Title 5 by failing to notify him of the termination on or before Dec. 18, claims Smith. Title 5 entitles him to a terminal year if he is not informed in time.

Bradford Smith: Fighting his dismissal.

The OH Unit: *The ideas, like the flowers, keep germinating at Poly*

by ARMANDO CORELLA

What may be the least explored ground by Cal Poly students may also be the most productive on campus.

The Ornamental Horticulture Unit located at the end of Campus Way, next to the horse unit, hardly has what could be considered a flow of student traffic. It is probably safe to assume that a large number if not a majority of Poly students are not even aware of the OH unit's existence. Despite the anonymity, and the increased cost of production materials which have tripled the price of essential fertilizers and petroleum products, the nursery located on the grounds has managed to net a profit for the last five years.

An answer to this minor phenomena may be that Cal Poly has the largest Ornamental Horticulture (OH) department in the United States.

Dave Focht, greenhouse superintendent, is quick to point out that students, not plants are the ultimate product of the department. When

'Focht...is quick to point out students, not plants are the ultimate product.'

asked about the quality of the product, Focht proudly refers to a quintet of Poly graduates who were recently hired by a local seed company to reputable positions.

Perhaps the best support of the OH unit's claim of being the best in the country comes from the many businesses who have shown an avid interest in the department. The current construction of two additional greenhouses has been made possible by contributions from various manufacturers to the OH department. An extensive Juniper collection was also donated to the landscape arboretum by a large nursery located in Southern California. (An arboretum is a place where various trees and plants are cultivated for educational purposes. Cal Poly has one of only three in this state.) Most indicative of the widespread interest was the selection of the Ornamental Horticulture department by a national committee to grow an All-American

photo by CHRIS VAN RY

Vicki Bentbay, student manager of the Ornamental Horticulture Unit, examines the interior of Poly's anonymous, yet successful contribution to the flower world.

Display Garden of annual flowers. Seed manufacturers provide the seed and later study the growth of the plants with consideration to the different variables. Cal Poly was the only school west of Colorado to receive the honor.

The 10 acre lot known as the OH unit consists mainly of the arboretum, eight greenhouses, 2 labs and the nursery. The nursery sells student projects at "comparable prices to professional nurseries" according to Focht.

All sales are made through an Enterprise Project program which is financed by the Cal Poly Foundation. This program enables a student to raise a crop into a saleable item and sell it retail at the OH nursery or wholesale to local nurseries. One-third of the net profit goes to the Foundation and the remaining two-thirds to

'This program enables a student to raise a crop into a saleable item.'

the student. Students are totally responsible for their projects which involve much more than planting and watering seeds.

The grower must learn the culture of a plant or crop, methods of proper fertilization, pest control, light intensity requirements, germination or best time for a cutting, scheduling of crops for a sale date, and bookkeeping of sales and expenses.

About 50 students are involved in Enterprise Projects and another 24 students hired on as nursery labor help. Aside from the greenhouse aspect, there are also about 100 students enrolled in 12 sections of floral design which teaches students a wide variety of flower arrangements.

The OH unit is manned by students under Focht's direction, who serves mainly as a coordinator. Focht, who insists on running the unit as a commercial operation, stated that the direction of the instruction in Ornamental Horticulture is to train students as if they are going to manage a flower shop or nursery. Such an objective calls for a complete, quality education. Viewing the success of the OH unit in reaching its objective, it is clear that the Ornamental Horticulture department at Cal Poly is the best in the United States.

Legal Aid

3 ways to pay money

There are three different types of money given to the landlord at the beginning of any rental agreement. These include:

1. An advance payment of rent, which the landlord is entitled to keep if the renter defaults the lease.

2. The security deposit which is used to secure faithful performance of the lease conditions. The landlord may deduct fees from this money for proved damages to the premises. The tenant is entitled to the balance of the deposit.

3. A cleaning fee is often confused with a cleaning deposit. A cleaning fee is usually not refundable and is used solely to clean the premises. The tenant and landlord should clear up the confusion between a cleaning or deposit fee before any agreement is finalized.

Landlords must use deposits and fees as prescribed in the lease. The last month's rent is used solely as the last month's rent and not as a security or cleaning deposit. The security deposit may not be used as a cleaning fee and cannot be used for damages to the property. Theoretically, the tenant is entitled to interest accrued by the

security deposit. This is rarely collected but if possible the tenant should persuade the landlord to insert this in the lease agreement.

Before moving into the premises, the tenant should carefully inspect them and itemize what is present and the current conditions. This inspection should be duplicated and

'Security deposit may not be used as cleaning fee'

should be signed by both the tenant and the landlord. Before moving out, the landlord and tenant should inspect the premises again to determine how much of the deposit is to be returned. It is also a good idea to have a witness present at both inspections. This hopefully will ensure that the landlord makes a just assessment of the premises. A witness is helpful in court actions against landlords.

In court actions to get a deposit back, it is necessary to prove that the landlord intentionally or maliciously withheld a deposit. Claims against the landlord should be filed in a Small Claims

Court. The tenant may be awarded up to \$200 in punitive damages in such court actions.

The tenant deposits are protected by Section 1951 of the Civil Code. This statute governs all such deposits to the landlord. The statute states:

1. Landlord may claim only such amounts as are reasonably necessary to remedy tenant defaults (cleaning, repairing, etc.). The rest of the deposit must be returned to the tenant within two weeks.

2. Bad faith retention by landlord of payment or deposit may subject landlord to \$200 worth of damages (maximum) plus any actual damages.

Art course

A life drawing course will be taught by Richard Yaco, a Cal Poly instructor in the School of Architecture for a 10-week period beginning Feb. 6. The class, sponsored by the San Luis Obispo Art Association, will be held Thursdays from 7 until 10 p.m.

Interested persons can register at the Art Center, 1010 Broad St., San Luis Obispo, during gallery hours, 12 noon to 5:30 p.m. daily except Mondays. The fee is \$30.

Letters Male queen?

Editor:

Since 1975 is California Women's Year, as reported by the Mustang Jan. 22 issue, why don't we have a Poly Royal King and his (male) court this year? Why must it be women who are always subjected to the scrutiny and criticism of the judges and others? We think it's high time that women have a chance to look over some of the beautiful and scholarly (2.3 GPA?) men of this campus. And, don't forget, they need to have personality (who doesn't?) and must be photogenic. Come on men, let's see your applications for this honorable (and demeaning) title.

Martha Cleary
Alice Karle
Allison G. Jones

Bowlers rude

Editor:

It's quite admirable that this university has provided the students an opportunity to play pool and bowl at such low prices. However, ten bowling lanes aren't enough to adequately serve the 14,000 students of this campus.

If a student wants to bowl, he usually must sign a waiting list. Just because you are on a waiting list doesn't mean you will eventually get a lane, especially on Saturday nights. During the Saturday Night Special, most of the lanes are occupied by the same people for as long as four hours. You see, once you get a lane around 8 p.m., you keep it until 1 a.m.; at least that seems to be the trend.

I feel the management should have a limit on the number of games you can play when there is a waiting list. With the limited facilities, it is not right that only a very small group of students can monopolize the entire bowling alley.

'Klansman' raw, violent movie

by DENNIS McLELLAN

"The Klansman," a tale of bigotry in its sickest, most perverted and violent form, is an exploitive piece of melodrama centered in a small Alabama town.

Director Terence Young's film (at the Madonna Theatre), is peopled with the kind of red-neck bigots you love to hate. Even the town preacher is a card-carrying Klan member who stands idly by while a fellow Klansman rapes a black woman.

The movie opens with a political sign saying, "You Are Entering Wallace Country." It ends with a frightening hill-top shoot-out with an army of the white-hooded cross burners. In between, it is filled with two rapes, one attempted rape, three murders and various beatings.

Loosely raveled around an impending black voter registration demonstration initiated by "a bunch of outside agitators," the film unwinds in a series of violent episodes.

"The Klansman" contains some poorly written and poorly acted moments, most notably a scene in a church where a white woman who has been raped by a black man is treated like a leper and told by the preacher, "If you have any Christian decency in you, you'll leave."

Director Young's portrait of small-town bigotry is a totally

dark and violent picture lacking in any redeeming values.

Lee Marvin plays the local sheriff, who for purposes of reelection, chooses to play along with the Klan. The white-haired actor plays the part with steely-eyed calm, which, in the end, breaks forth in a familiar burst of Marine Corps toughness, proving he hasn't aged a bit.

Richard Burton, sporting a southern accent and a game leg, is the town's whiskey-soaked liberal who defies the Klan philosophy. The talent that was Burton is rarely evident. In spots, he seems bent on doing a mumbling impression of Marlon Brando in "Streetcar Named Desire." But years of wine, women and Liz Taylor would take their toll on the best of men.

O.J. Simpson, one of the latest football players to turn to acting, comes off well as a man out to avenge the brutal murder of his friend. He plays an assassin in such a quiet and casual manner, that when he later explodes in a verbal assault, it is shockingly good.

Like "Death Wish" in which audiences rooted for Charles Bronson in seeking revenge for the murder and rape of his wife and daughter, "The Klansman," to a lesser degree, makes the audience root for Simpson.

Veterans and children can claim benefits

Veterans who were discharged undesirably may be eligible for educational benefits. Some paperwork is involved and the final decision is in the hands of the Veterans Administration.

One possibility is upgrading the discharge. A complicated process, a bill is before the Senate which would simplify the process.

A deciding factor in upgrading a discharge is a personal appearance before regional boards, to be established under the bill. The bill is sponsored by Senators Cranston and Stafford, of California and Vermont.

County Veterans Service Officer John A. Enos announced changes in the pension program for children of deceased veterans. Students receiving payments of \$44.00 monthly and who have been denied benefits this year because of excessive income may be eligible now. The income limitation has been increased to \$400.00 by amendments to the pension program by Congress in December 1974.

Bonsai class set

Bonsai, the art of growing miniaturized trees will be offered as an extension course this Winter quarter.

The course will involve a study of techniques, perception, training, culture, art and creation of the Japanese bonsai. There will be a field trip to the homes of several bonsai hobbyists to view private collections.

Teaching the course is Garth Hokanson who has 14 years experience with bonsai.

The one-and-a-half hour class will meet Wednesday nights at 7 p.m. It will begin Jan. 29 in laboratory A of the Ornamental Horticulture Unit here. A \$22 fee

will be due at the first class meeting.

For further information call 546-2063 or write to "Extension," addressed to Cal Poly Administration 314.

It Sounds Incredible

BUT EVELYN WOOD GRADUATES CAN READ

THE EXORCIST IN 58 MINUTES

At That Speed, The 403 Pages Come Across With More Impact Than The Movie.

You can do it, too. So far over 550,000 other people have done it. People who have different jobs, different IQs, different interests, different educations have completed the course. Our graduates are people from all walks of life. These people have all taken a course developed by Evelyn Wood, a prominent educator. Practically all of them at least tripled their reading speed with equal or better comprehension. Most have increased it even more.

Think for a moment what that means. All of them—even the slowest—now read an average novel in less than two hours. They read an entire issue of Time or Newsweek in 35 minutes. They don't skip or skim. They read every word. They use no machines. Instead, they let the material they're reading determine how fast they read. And mark this well: they actually understand more, remember more, and enjoy more than when they read slowly. That's right! They understand more. They remember more. They enjoy more. You can do the same

thing—the place to learn more about it is at a free speed reading lesson.

This is the same course President Kennedy had his Joint Chiefs of Staff take. The staff of President Nixon completed this course in June 1970. The same one Senators and Congressmen have taken.

Come to a Mini-Lesson and find out. It is free to you and you will leave with a better understanding of why it works. One thing that might bother you about your reading speed is that someone might find out how slow it is. The instructors at the Evelyn Wood Reading Dynamics Free Speed Reading Lesson will let you keep your secret. It's true we practice the first step to improved reading at a Mini-Lesson and we will increase your reading speed on the spot, but the results will remain your secret. Plan to attend a free Mini-Lesson and learn that it is possible to read 3-4-5 times faster, with comparable comprehension.

SCHEDULE OF FREE MINI-LESSONS

You'll increase your reading speed

50 to 100% on the spot!

Hayward pivotman Stan Cherry is about to haul in one of 19 rebounds he garnered in Pioneers 78-59 win Thursday night.

Cherry does job on Poly defense

Cal State Hayward did what no other team's been able to do against the Mustangs this year, win on the Mustangs' own court.

Behind an awesome performance by 6-8 senior center, Stan Cherry, the Pioneers demolished the number one ranked Mustang defense, 78-59 Thursday night.

Cherry led the Pioneers with 27 points, shooting a blazing 86 per cent from the floor, and hauled down 19 of Hayward's 39 caroms.

The Mustangs were undefeated at home, going into the game, but their unblemished record was spoiled by the aggressive Pioneers, who played their best game of the year.

Cherry's assists, lightning quick outlet passes, and dominating play on both ends of the court provided a catalyst for the Pioneers inspired play.

Assistant Mustang Coach Tom Woods said, "They shot well, executed their offense effectively and played a great game. Not many teams in college basketball could have beaten that team tonight."

The Pioneers blew a tight second half wide open in the second half, shooting a red-hot 70 percent from the field, making 21-30 field goal attempts.

The Mustangs, after a slow start, led 20-25 at the end of the first stanza, thanks to Dave Erickson and Dave Bush.

Erickson scored 8 points and Bush added two buckets and grabbed three key rebounds coming off the bench midway through the first half to spark the sputtering Mustang offense.

But the second half belonged to the Pioneers.

The Pioneers hit two long jumpers at the start of the half and were right back in the game. The lead then changed hands half a dozen times.

But with Cherry on the bench in foul trouble the Pioneers rose to the occasion. After Chris Davis dropped home a long jumper to give the Pioneers a 41-39 lead they never looked back.

Before two minutes had elapsed on the clock, the Mustangs were down by 11 points, 50-39.

In an attempt to repeat the script of their comeback earlier this year against the Pioneers, in which the Mustangs fought back from a nine point second half deficit, Wheeler shuffled his lineup.

But the Mustang offense continued to sputter and eventually grounded to a halt, making only 10 of 34 shots for a miserable 29 percent in the second half.

Woods felt the Mustangs were not emotionally ready for the game. He said, "The game of basketball is 75 per cent emotion and we were not mentally prepared to play, possibly over confident, and as a result we lost."

Even the heralded Mustang defense, which has been called upon often in recent games to provide the margin of victory, failed to rise to the occasion.

Before Monday night's non-conference clash with University of San Diego, Wheeler will be looking for a prescription to cure his ailing offense.

The Mustangs played without the team's leading scorer, Gary Orgill, who is suffering from an ankle injury he sustained in the Bakersfield game. According to Woods he is expected to play Monday.

The leading scorer for the Mustangs was Gerald Jones with 16 points, followed by Bush, who had 15 and led the team in rebounds with nine.

The Mustangs record slipped to 6-6, while Hayward won only its fourth game against 14 losses.

Mustangs top Dominguez in home opener

In its first home match of the young season, the Mustang volleyball team soundly defeated Cal State Dominguez, Friday night.

The Mustang spikers disposed of the Toros in three straight games, 15-6, 15-4, and 15-8.

In defeating the Toros the Mustang spikers improved their record to 2-0 and established themselves as contenders for the California Collegiate Volleyball Association championship.

The Mustangs' long hours of practice which began the second week of the Fall Quarter was reflected in the outstanding play of the spikers.

Coach Ken Preston said following the match; "We have worked very hard as a result are passing, setting, and defense was super."

In praising the play of his entire team, Preston singled out the play of his two setters Steve Bartlett and Rich Giacomuzzi as outstanding.

Preston was surprised at the ease in which the Mustangs won. "I thought Dominguez Hills would be a much better team than they were."

He added "they made a number of costly mental errors and fundamental mistakes that cost them the match."

Before a large partisan crowd the Mustangs played mistake free volleyball leading all the way in the first two games.

The Toros lead only once in the match 2-0 early in the third game. But the Mustangs behind strong serving from Bartlett took the lead 2-3 and never looked back.

The difference in the match was the experience and overall depth of the Mustangs.

The Mustangs will need an equally outstanding game when they face the always tough Santa Barbara City College team Thursday night.

According to Preston, "They are one of the better volleyball teams in California with super players and good coaching, which will make the match a really good one."

Track coach at PE confab

On Tuesday, Jan. 28, the CAH-PEP (California Association For Health, Physical Education And Recreation) Student Unit will be holding its first meeting of the Winter Quarter.

The featured speaker at the meeting will be Steve Simmons. Simmons is the head track coach at Cal Poly, and he will relate his experiences this past summer in Africa training and coaching African athletes.

UCSB thumps Poly women nets

The women's tennis team faced an unmerciful U.C. Santa Barbara squad at Cal Poly Thursday. The relentless Santa Barbara team wiped out the Mustangs in every match.

In the singles matches, No. 1 Candy Blunker (UCSB) defeated Ruth Gilstrap, 6-0. At No. 2, Helen Metager (UCSB) defeated Roxie Lachman, 6-2. In the No. 3 position, Allison Applegarth (UCSB) defeated Jan McNab, 6-1 and in the No. 4 spot, Vicki Ables (UCSB) defeated Kathy Merrel, 6-3.

Completing the singles Cathy Mansel (UCSB) defeated Mary Ann Dudley, 6-1; Lilly Valdes (UCSB) defeated Debbie Ciraulo, 6-3; and Barbara Caughlin (UCSB) defeated Phyllis Goldman, 6-0.

In doubles action the Mustangs fared no better.

No. 1 doubles, Blunker and Metager defeated Gilstrap and Lachman, 6-2. In the No. 2 and 3 spots, Applegarth and Valdes defeated McNab and Ciraulo, 6-1, while Caughlin and Mansel defeated Dudley and Merrel, 6-1.

The Mustangs had anticipated a tough match from UCSB which is one of the tops in women's tennis. Poly is in a lower league.

Coach Sonja Murray said, "I felt that under the circumstances, the girls played very well. We've only been in practice a few days, while Santa Barbara has been practicing since September."

"I am not at all disappointed in the match and I have great admiration for the girls. I have nothing but good things to say about the team. I am very positive about the upcoming season."
